## Personal profile

A highly ambitious university graduate seeking to gain valuable experience from an internship in the company. I have excelled in my field of study and therefore find it necessary to put my knowledge to good use by taking advantage of the valuable opportunity offered by this internship. Through my education and previous experience, I believe I have developed exceptional accuracy in detail, teamwork skills, ability to work under pressure, and rich communication skills. In the past years of my degree in programming, I learned to design and build easily scalable applications using django. Hence, I am very keen to work as a programming intern.

python including flask , django and Selenium  
I have excellent knowledge of sql  
Time management

I have excellent API documentation skills  
Advanced knowledge of django  
Problem Solving

## Education
